

# Duffy's Pure Malt Whiskey

MEDICINE FOR ALL MANKIND.

## Cures Consumption!

Dear Sirs—After reading your advertisement I bought a bottle of your whiskey, which helped me right away. I am now on my third bottle, using it for consumption, and I feel like a new man. I think that if I had known of your whiskey when I was at home in Chicago I would have never come out here for my health.—ED SCHUBARTH, 1505 Market St., Denver, Colo., March 30, 1901.

**STOPPED HEMORRHOIDS.**  
Nashua City, N. H., June 15, 1901.  
Gentlemen—It is with great pleasure that I write to inform you that I have used eight bottles of your Pure Malt Whiskey. I would not have been here today only for your wonderful medicine. I have used all kinds of medicine and have been under the care of doctors. I have had three severe attacks of grip and pneumonia, which have left me with a bad cough and weak throat. I am 67 years old. It has toned up my system and stopped the hemorrhages and I cough but very little. I only regret that I did not know of your whiskey before. I cannot express what it has done for me. I beg to remain, Yours respectfully,  
MR. H. C. ALLINGTON.

Gentlemen—I commenced on your Duffy Malt Whiskey last March and I have been faithful in taking it ever since. I have used one dozen bottles and am feeling better. My hemorrhages have almost stopped and cough very much improved.  
WILLIE D. BALL,  
No. 718 N. 1st St., Richmond, Va., Sept. 11, 1901.

**120 YEARS OLD.**  
Abraham E. Elmer of 4 Spring street,  
FREM—If you are sick and run down, write the Medical Department DUFFY MALT WHISKEY CO., ROCHESTER, N. Y., freely. All correspondence in strictest confidence. It will cost nothing to learn how to regain health, strength and vitality. Medical booklet free.

It is the only whiskey recognized by the government as a medicine. This is a guarantee. All druggists and grocers, or direct, \$1.00 a bottle.

**GUARANTEED TO CURE**

**GALVANIC ELECTRICITY**  
APPLIED RIGHT MEANS TO YOU  
**VIGOR AND VITALITY**

**VITAL POWER.**  
When man loses his Vigor and Vitality, there is simply a Wasting of the Nerve Force, and Nerve Force is nothing but Electricity. No scientist has ever been able to separate Nerve Force from Electricity—they are identical, therefore, when you buy Electricity you buy Nerve Force. Electricity, which is Nature's Remedy, must be supplied to the Paralyzed Nerves and Weakened System, which have been starved of Electricity, for this Mysterious Element is their Food. Nerves Die from Want of Electricity.

**DR. BENNETT'S** are the most improved and scientific method of applying **ELECTRIC BELTS** Electricity to the human system and must not be confused with the many so-called electric belts now being offered the public. Mine are unlike all others and have a rubber, charcoal-covered sponge electrode, which prevents the frightful burning and blistering caused by other belts, which have bare metal electrodes. My Belt has interchangeable Battery Cells and can be renewed when burned out for only 75c; when others burn out they are worthless.

**DR. BENNETT'S** Electric Appliances will cure VARIICOLE and all Weaknesses in either sex; will restore Lost Vigor and Vitality; will cure Rheumatism in any form, Kidney, Liver and Bladder Troubles, Constipation, Stomach Disorders, all Female Complaints, etc.

Call in and see me today, or write and secure my two free books on "Nervous Ailments and Their Cure by Electricity" and "Diagnosis of the various ailments of the body without cost." No electric belt genuine unless stamped "Dr. Bennett" and numbered. Sold only by

**DR. BENNETT ELECTRIC BELT CO.**  
Rooms 301 and 311 Douglas Block, Cor. 16th and Dodge St.  
Opposite Haydens. OMAHA, NEB. Always Open

**PROPER PRESENTS FOR CHRISTMAS.**  
**Genuine Barrios Diamonds**

(Trade-mark.)  
Are equal to real diamonds as to looks and wear, will cut glass and stand all the tests of old mine gems. For a few days we offer magnificent rings, studs, pins, earrings, etc., at the marvelously low price of ONE DOLLAR EACH.

**Gentlemen's Heavy Flat Belcher Ring**  
Ladies' Ring Rings.

We are the first to introduce a gold-filled flat Belcher Ring; heretofore they have been made only in solid gold. This ring, set with a beautiful brilliant Barrios Diamond, will be mailed to any address in the world upon receipt of price—\$20.00. This ring has the appearance of one costing \$200.00.

**OUR GUARANTEE—GENUINE BARRIOS DIAMONDS** are guaranteed to retain their brilliancy forever. The mountings are heavy rolled plate and are made of one continuous piece. The plate is thick shelled-gold, and will last 100 years. These rings are warranted not to tarnish in the air and are greatly superior to any similar goods ever placed on the market. Studs and Pins, \$1.00 each. Earrings, screws of drops, \$2.00 per pair.

**MAIL ORDERS**—In ordering give full directions and state whether small, medium or large stone is desired. Finer measurement of rings may be given by using a piece of string. Order at once and avoid the Christmas rush. If goods are not represented money will be refunded. Address all orders promptly to

**BARRIOS DIAMOND CO., 1139 Broadway, New York**

## STATUS OF THE SUGAR WAR

### New Local Grocery Jobbers Have Been Affected by It.

### TRUST WON'T LET THEM FILL ALL ORDERS

### Beet Sugar Men Insist that Sole Purpose is to Crush Out Beet Sugar Industry to Give Trust a Monopoly.

There is no change in the local sugar situation. Omaha jobbers are receiving orders ten times as large as they are able to fill. Retail dealers, seeing an opportunity to buy sugar at a price which is not generally afforded them, are only prevented from buying in supplies large enough to last them the entire year by the fact that the refining company will not deliver the goods to the jobbers in quantities sufficient for them to execute the orders received.

The local representative of the Sugar trust will make no positive statement in regard to the quantity of sugar which will probably be delivered at Omaha at present prices. The jobbers look at the matter in a little different light.

### A Jobber's View.

Said C. H. Pickett of the Paxton-Gallagher company: "We receive orders for ten bags where we get one bag of sugar. As a result of this condition we have instructed all salesmen to place orders for sugar on a separate list; when these lists are received they are registered and the sugar arrives it is divided pro rata among the retailers. This is necessary in order to give every man a chance to get some sugar at the present price—\$4.25 per hundred weight.

"The situation is peculiar in that we are selling granulated sugar for less than we sell lower grades. According to the statements of the refiners, it costs at least \$4.25 to lay the sugar down in Omaha, exclusive of brokerage and packing. The American Beet Sugar company is keeping out of the fight. This shows their wisdom, as I believe that the American Refining company is only too anxious to have them meet the reduction in order to secure an argument in favor of the abolition of the present tariff on Cuban raw sugar. The American Sugar company is already making large profits on free raw sugar from Hawaii and would like to get its entire raw material free from the tariff. If the Beet Sugar company would meet the tariff, it would be a great advantage to the American producers but not need the tariff.

"At the same time the beet sugar people can ship to New York or Chicago, quote prices 10 cents below the cost in those cities and then make 25 cents a hundred over the price of the Missouri river."

### Same Story Everywhere.

Edgar Allen of Allen Bros. said: "We are only receiving about half the sugar we received this time last year and our orders have more than doubled. What the ultimate result will be no one can tell."

J. S. Brady of McCord-Brady & Co. said: "We are receiving the usual amount of sugar and orders are piling up so that we do not pretend to fill them. An order is received and filed. If a man wants 100 sacks he probably gets from two to ten.

We are making no contracts and all sugar is sold at the market. Sugar is about 10 cents below the price of cheap sugar all winter, but maybe the price will not be as low as it is now."

E. C. Howe of the American Beet Sugar company was seen and made the following statement: "The Sugar trust has been occupying the territory where the beet sugar producers have been accustomed to market their product and is offering sugar in limited quantities for sale at a less price than the cost of production of beet sugar. At some points within the territory of the beet men the Sugar trust offered sugar at 3 1/2 cents per pound, while in New York (a point from which they supply the sugar) the sale price was 4 1/2 cents. This is a life or death conflict for the beet sugar industry. The advantage of that industry to the farmer and the nation will be realized if you reflect that from an insignificant production of ten years ago the total production for 1901 is estimated at from 150,000 to 200,000 tons and over \$1,000,000 is paid to the farmers this year for their beet crop.

### Beet Sugar Men Undaunted.

"The beet sugar men are not unmindful of the enormous power of the Sugar trust. It has millions at its command which it can afford to lose, while this vigorous infant beet sugar industry has but hundreds. Notwithstanding this disparity in resources, the beet sugar men do not propose to surrender. If they are to be crushed to death by this giant monopoly, they will at least die hard, but there is no reason why this industry, of so much advantage to the people of the United States, should be crushed, but we need the co-operation of every man who has the good of his country at heart. The people of the United States are sensible enough to know what it means to them. They may make a temporary gain by buying a little cheap sugar, but they also know that once the beet sugar industry is killed they will be at the mercy of the Sugar trust and whatever advantage they may have gained in the brief months of battle will be dearly paid for through the years to come.

"Do not be misled. We are by no means powerless and if we had the co-operation of all good citizens, upon whom we depend that we have the right to rely, the beet sugar men will strike back in no uncertain way and will not be crushed out of existence, even by the Sugar trust, the greatest of all American monopolies."

### Too Much for Reuben.

Indianapolis Sun: "Yes, sir," said Uncle Reuben, as the graphophone stopped, "that's mighty good—mighty good!" "Just wait awhile," said the youth, as he slipped on another record, "and I'll explain it to you."

"Oh, I understand it all right," responded Reuben. "Understand it all except one thing."

"What's that?" asked the youth.

"Well, answered Reuben, with an abashed grin, "I understand how these slight-of-hand fellers pull big rabbits and pigeons out of little hats, but I'll be danged if I understand how you get a full brass band in that box."

Don't miss reading the want ad. page.

## ABOUT NOTED PEOPLE.

Edwin Brown, who died in Boston a few days ago, was one of the few remaining original Sons of the Revolution. Mr. Brown was born in Pittsburgh, June 19, 1805. He went to Boston at the age of 18. His father served in the revolutionary army, and was at the battle of Bunker Hill, and his great-grandfather was Colonel Israel Hutchinson, who participated in the colonial wars and also in the revolution. Mr. Brown's wife, who died about ten years ago, was a relative of Benjamin Franklin and Daniel Webster.

Of the many peculiarities of Edward S. Stokes, who died in New York recently, all those who ever met him were sure to note one. From the day he left Sing Sing prison, after serving out his sentence for killing James Edwards, he never spoke to anyone. He would shake hands if those to whom he was introduced offered their hand first, or if one of his old acquaintances offered his hand he would take it. But he concluded himself in such a way as not to give anyone an opportunity to shake hands with him. He would shake hands with those to whom he was introduced, but he would not touch the hand that had shed blood. The story of his relations with Fisk and Josie Mansfield and their tragic outcome have been told many times and will be repeated by everyone who writes the history of the city of New York. The case has few, if any, parallels in civilized society.

A story is being told in the London clubs about King Edward's death. It is said to have arisen among a circle of his intimate friends as to how they would meet a sudden reverse of fortune. One of them turned to the prince—it was before his accession—and said: "If I were a monarch, I would have here, sir, what would you do?" "Well, I think I might support my family by lecturing in the United States upon how it feels to be prince of Wales."

"While Prof. Virchow," says the Boston Transcript, "has been an indefatigable worker in science and politics all his life, on one thing he surrendered, years ago, convinced that it was useless to struggle against his fate any longer. This thing was pronounced by his name. The English, the French, the Italians, the Russians, all had their own way of accosting him and even the Germans generally got it wrong, most of them addressing him as 'Wircho' (the German 'W' being pronounced as 'v'). The correct pronunciation, according to the professor, is 'Vircho' (the 'i' being like 'i' in pin, and the 'ch' being, of course, pronounced in the German way). This pronunciation is also the one always heard in the village of Virchow, and near Lake Virchow."

Habibullah, the successor of Abdurrahman as amier of Afghanistan, is a handsome young man of 30, with dark hair and bushy, shallow complexion and a pair of large, dark eyes. He dresses in the European style, but has neither the gigantic frame of Abdurrahman nor his commanding presence. But by all accounts he is a man of great ability, who has had a great deal of administrative experience and is possessed of much personal courage.

"Mexico's grand old diplomat, Hon. Ignacio Mariscal," says the Mexican Herald, "is one of the most eloquent, forceful and brilliant orators in the new world. His speech at the meeting of the Pan-American delegates was a masterpiece of cordial greeting, statesmanlike scope of contents and rhetorical art. In the original Spanish it may be read in all its perfection, translated into English, much of its quality and force is lost. It is more than the forty-eight minutes it took to deliver, it is a saying neither too much nor too little. We have all come to expect great things from Mr. Mariscal, and he never disappoints us."

The chair which President McKinley occupied at the sessions of the cabinet has become the property of Secretary Cortelyou. It has been the custom of the retiring president to present to some friend of the cabinet a chair to be used by the incoming president. President Harrison gave his chair to Executive Clerk Crook and the latter regards it as one of his most valued possessions. President Cleveland presented his chair to his private secretary, Daniel S. Lamont. The chair which was presented to the incoming president shall not be given away, but that it must be formally condemned and disposed of at auction. No one has ever questioned the right of the president to give away his chair, however. Secretary Cortelyou is very anxious to get the chair which his chief had occupied for so long, and it was accordingly officially condemned, put up for sale and bought in by the devoted secretary.

Ernest Seton Thompson, the well known writer and author, has been granted permission by the supreme court of New York state to change his name to that of Ernest Thompson Seton. Mr. Seton Thompson in his petition said that the name of Thompson was a pseudonym adopted by his family, which bid from the English government after having taken part in the Jacobite rebellion in 1745.

G. H. Hansen, Lima, O., engineer L. E. & W. R. E. writes: "I have been troubled a great deal with backache. I was induced to try Foley's Kidney Cure and one bottle entirely relieved me. I gladly recommend it to anyone, especially my friends among the timbermen, who are usually similarly afflicted."

## LABOR AND INDUSTRY.

The sardine factories of Maine have closed. The price of the fish is so low that the world is promised another revolution in fuel by the oxygen is separated from the fish.

Nearly 5,000 colored workers employed in the southern tobacco factories are members of the Tobacco Workers' union.

The receipts of live stock this year at western distributing centers were \$1,374,484, or 10 per cent more than the year before.

At Caruma, Mich., men employed in furniture factories receive 15 cents a day. A recent effort to organize a union resulted in the discharge of all those interested in the movement.

The great steel trust will be of practical service to New York in opening the price of the Troy Steel company, which has been idle for five years and which once employed 10,000 men.

The controversy as to whether British or American locomotives are the better is all good citizens, upon whom we depend that we have the right to rely, the beet sugar men will strike back in no uncertain way and will not be crushed out of existence, even by the Sugar trust, the greatest of all American monopolies."

Great Britain has under construction 47 vessels of a tonnage of 41,410. The United States has sixty-four vessels under construction, with a tonnage of 232,228. This is more than the British tonnage and it is more than any of the other maritime nations.

The demand for bookbinders in Chicago far exceeds the supply. The officers of the International Brotherhood of Bookbinders are national officers to render some assistance in supplying competent workmen to meet the demand. The union calls for help made by Chicago firms.

The industrial commission's report on trade union membership is increasing rapidly. Nearly 1,500,000 men are members of this number being affiliated with the American Federation of Labor.

In Germany the National Metal Trade Union (Metallarbeiterverband) is the first to reach above the 100,000 mark. It has, in fact, 129,722 members. The following are the bricklayers with 32,326 members; woodworkers, 23,222; miners, 36,430; the smallest, tailors, 27; butchers, 25; gardeners, 25; molders, 24.

## BUILDING FOR AK-SAR-BEN

### Knights Suggest Plan for Society to Build Its Own Den.

### SCHEME FOR TEN-YEAR MEMBERSHIP

### Suggests Billiard Room, Bowling Alley, Cafe and Other Club Features to Make the Building Self-Supporting.

Speaking of the indefinite plans of the Knights of Ak-Sar-Ben in regard to permanent quarters a member of the society who has been prominently identified with it since its foundation says: "Understanding that the present structure known as the Ak-Sar-Ben Den will cost an increased rental, nearly double the price of last year, and that it is generally conceded that the east room in the proposed auditorium designated for Ak-Sar-Ben purposes will be insufficient in size to accommodate the work of the knights and the building of floats, I offer this as a suggestion for a way out of the dilemma."

"The Board of Governors select a committee of twelve of its best known membership hustlers, each hustler to select four other knights, making a committee of five, to whom a certain district of the city is mapped off, to make a canvass for members who will subscribe for ten years an annual membership fee of \$10, payable May 1 of each year. This hustling committee to continue the work, meeting weekly, until 1,000 memberships have been signed in that faith. This will aggregate the sum of \$100,000. When each \$100 is paid it will entitle the member to one share of stock in the Ak-Sar-Ben Den Building company. The entire amount of any part of it can be paid in at once.

### Build on a Down Town Lot.

"Secure a down town lot for twenty years and build the den similar to the present Coliseum, as cheaply as possible; not for show, but for convenience. The lot has already been offered to the knights for the taxes alone. It is estimated that \$20,000 will put up the building.

"Now for future revenue, and the uses of the den, aside from the space occupied for the building of floats and initiation ceremonies, it should contain a cafe, billiard room, bowling alley, gymnasium and plunge. The revenue from these adjuncts will maintain the building, pay for heat, light and employes and will leave ample opportunity in winter time, when not used for initiations, for concerts, amateur performances, recitals, etc., for which no other room at present in Omaha is accessible or convenient. This, then, will make the popular club and meeting place, day or evening, for the plain people. Give the members the privilege to invite out-of-town customers or friends to the place to entertain or to amuse them, and bring Omahans in close touch with one another. At present many a man with a small salary cannot see his money's worth at the initiation, and the great ball has no special fascination for his faded claw-hammer clothes.

"A permanent institution is the hope of the loyal knight, and he will be proud when he can feel at home in his own castle, and it is no idle boast that the first call for volunteers to bring about this result will be met by more than the forty-eight men needed to make the thousand membership roll a success in sixty days from their first meeting, and the permanent membership committee will see to it that the roll will never fall short of a thousand.

### For the Parade Fund.

"Now as to the parade fund. This should be decided upon early and the business men should answer by their yearly voluntary subscriptions, mailed before January 1, how much they desire a parade. The carnival festivities, if decided upon, can be carried on in the den and enclosure, proving the ground is large enough to entertain this proposition; then part of the amusement will be under permanent roof and the ball can take place in the big auditorium.

### The requirements of the membership

# Try This Whiskey

## Famous "Miss Chicago" Rye or Bourbon Worth \$9.00 a Gallon Now Shipped Direct to Consumers at Less Than Half Price.

### This is a Rare Bargain For All Who Appreciate Fine Liquor—You Can Try It Free.

### Try "Miss Chicago" Just Once—You'll Never Try Any Other.

No man can afford to drink cheap whiskey ever produced for only \$1.00. Sent by express in a perfectly plain package so no one can tell its contents.

All charges are prepaid to all points east of the Rocky Mountains. To customers in the Pacific Coast States charges will only be prepaid to the mountains.

On receipt of whiskey, if not perfectly satisfactory, return at their expense and they will refund your money without delay, making it cost you nothing to try it.

They are anxious to get away from the Chicago, it is a well-known fact that the public rarely gets the genuine article nowadays and the only real guarantee the consumer can have is the unbroken seal and original package direct from the warehouse of the Malcom Distilleries.

Send \$4.00 for four full quart bottles, or \$1.25 for a quart, all safely packed and guaranteed the genuine, rich, mellow "Miss Chicago" 15-year-old Rye or Bourbon, absolutely pure. If preferred package will be shipped by express C. O. D.

When it is considered that this famous whiskey has been sold by liquor dealers for fifty years at \$12.00 a gallon the public will appreciate this rare and genuine bargain.

We also mix the finest Manhattan cocktail known with "Miss Chicago" 15-year-old whiskey. We sell it at the same price, \$4.00 a gallon or \$1.25 a quart.

Add Malcom Distilleries Co., 200 Broadway and Madison Sts., Chicago, Ill. Reference, any bank in Chicago.

fees are to be no greater than in the past; the obligation of carrying out the ten-year plan can be taken care of without trouble, inasmuch as when a member leaves town permanently he will feel in duty bound to put a substitute in his place to continue his membership, as it is valuable from a stockholder's standpoint, and it may become dividend-paying. It is expected that many will pay for several years' membership fee in advance, to assist paying for the building. The concessions and revenues received from the various sources will assist in caring for the expenses of the initiations."

**She Was Shocked.**  
Chicago Post: "She said she was shocked when he kissed her," said the girl in blue. "Do you believe her?" asked the girl in gray. "Oh, yes," was the reply. "I was there, and I know it's true. He had one of the handles of an electric battery and she had the other."  
"Oh, well," admitted the girl in gray, "it was that case perhaps she was shocked."  
The best bargains in the paper are on the want ad. page. Don't miss them.

**Glad to See Her.**  
Leslie's Weekly: "So you overcame that old antipathy of yours," her husband remarked, and called on Mrs. Bobbles."  
"Yes."  
"Do you think she was glad to see you?"  
"I am sure of it."  
"Ahem—you must have some reason for that belief outside of her assurances."  
"Oh, well," had on the old dress that was made over twice, my hat was out of style and my hair had become uncurled, while she had on a gown that couldn't have come from anywhere but Paris. Could she help being glad to see me?"

# Men Be Cured

## How the Frightful Tension of STRICTURE Is Instantly Relieved. Startling Record of Gran-Solvent.

### Dissolves STRICTURE like snow beneath the sun, reduces ENLARGED PROSTATE, contracts and strengthens the Seminal Ducts, in 15 Days forever stopping DRAINS AND EMISSIONS.

### No Drugs to Ruin the Stomach, But a Direct, Local and Positive Application to the Entire Urethral Tract. GRAN-SOLVENT IS NOT A LIQUID. It is prepared in the form of Crystals of Potash, smooth and brittle, and so narrow as to pass the closest STRICTURE.

Showing the diameter of the St. James Crystals, containing the solvent "Gran-Solvent" or tonic "Cristaline," or both in combination. THEY ARE PREPARED IN VARIOUS LENGTHS TO SUIT THE PATIENT'S CONDITION, are inserted into the urethral canal upon vibrating of night, and the position is held by the weight of the crystals, and out like a solid electric current, now creating long impering vim and snap to the entire body. The curative effect is felt from the first application.

**The Great Virtue in the Method of Application**  
It is the direct and positive action. No vile, drastic drugs to ruin the stomach and digestive system. The crystals are inserted upon retiring at night, dissolving by the heat and pressure of the body, which in three hours, which is the normal time for passing urine, has dissolved the granular mass, root and branch, sootiness with the GRAN-SOLVENT, leaving the urethra clear and unobstructed. The granular mass is dissolved, and the urethra is clear and unobstructed. The granular mass is dissolved, and the urethra is clear and unobstructed.

**DRAINS AND LOSSES.**  
Cutting while you sleep, without pain or inconvenience, in fifteen days, the alternative and fatal action of "Gran-Solvent" is shown. It is a direct and positive action. No vile, drastic drugs to ruin the stomach and digestive system. The crystals are inserted upon retiring at night, dissolving by the heat and pressure of the body, which in three hours, which is the normal time for passing urine, has dissolved the granular mass, root and branch, sootiness with the GRAN-SOLVENT, leaving the urethra clear and unobstructed. The granular mass is dissolved, and the urethra is clear and unobstructed.

**STRICTURE**  
It is dissolved and dissolved. It is a direct and positive action. No vile, drastic drugs to ruin the stomach and digestive system. The crystals are inserted upon retiring at night, dissolving by the heat and pressure of the body, which in three hours, which is the normal time for passing urine, has dissolved the granular mass, root and branch, sootiness with the GRAN-SOLVENT, leaving the urethra clear and unobstructed. The granular mass is dissolved, and the urethra is clear and unobstructed.

**VARIICOELE**  
It is an accumulation of stagnant blood in the veins of the scrotum, and is a dangerous condition. It is a direct and positive action. No vile, drastic drugs to ruin the stomach and digestive system. The crystals are inserted upon retiring at night, dissolving by the heat and pressure of the body, which in three hours, which is the normal time for passing urine, has dissolved the granular mass, root and branch, sootiness with the GRAN-SOLVENT, leaving the urethra clear and unobstructed. The granular mass is dissolved, and the urethra is clear and unobstructed.

There is no question that you feel like you look: dependent, weak, nervous and despairing. Your sleep is disturbed with frequent awakenings, and you wake tired and with your mind filled with evil forebodings. You know you are seemingly weak, you also know from sad experience that all of the drugs that you have poured into your stomach have left you worse than they found you.

**NOW LISTEN!**  
Not one drop of internal medicine that you ever did or will put into your stomach will cure you. Why? Because your ailment is not in your stomach, or liver, or kidneys, but in the urethral canal. It is a local disease, and as such requires local treatment, and as such requires local treatment, and as such requires local treatment.

The St. James method is direct, positive and unailing.
